go with FLEXIBILITY

Life changes, and your client's life insurance policy should flex with them. Whether they want to make sure they can set a certain amount aside for their loved ones, need to take a loan for an unexpected expense, or accelerate part of the death benefit for a qualifying illness, Midland National has your client covered.

Fixed interest participating policy loans provide financial flexibility without sacrificing growth—and they're available in policy year three. We declare an interest rate charged for the loan, but the loaned money stays in the index accounts and continues to earn index credits. We also credit a bonus on the loaned money! This loan – and the bonus – are available in policy year three.

Protected death benefit: This unique feature¹ only offered by Midland National provides a guaranteed death benefit with flexibility, allowing your client to choose the amount they want to guarantee, and the amount they want to access in distributions in the future.

Living benefits²: Accelerated death benefits for critical, chronic, and terminal illness are included with no additional premium³, allowing your client to access a portion of their death benefit while living if they were diagnosed with a qualifying illness.

A couple things that make our living benefits stand out:

- **Waived policy charges during a chronic illness claim**
- **Ceased lapse checking when over 50% of the death benefit is accelerated**

1. To the best of our knowledge, this feature is not available for products outside of Sammons Financial Group Companies.

2. Accelerated Death Benefits are subject to eligibility requirements. There is no additional Monthly Deduction or premium charge for the Accelerated Death Benefit Endorsement. However, the actual payment received in connection with any acceleration will be discounted and is lower than the Death Benefit amount accelerated. In addition, there is an administrative fee required each time an Election is made.

3. Subject to premium payment requirements.

4. The current interest bonus on money allocated for a Fixed Interest Participating Policy Loan is 2% for years 3+. There is no bonus on money allocated to any other loan type. The interest bonus percentages are not guaranteed and subject to change; however, once a policy is issued, the guaranteed percentage will not change.

Indexed Universal Life Insurance products are not an investment in the "market" or in the applicable index and are subject to all policy fees and charges normally associated with most universal life insurance.

The net cost of a Fixed Interest Participating Policy Loan could be negative if the credits earned are less than the interest charged. The net cost of the loan could also be larger than under standard policy loans if the amount credited is less than the interest charged. In the extreme example, the amount credited could be zero and the net cost of the loan would equal the maximum interest rate charged less any guaranteed bonus. In brief, fixed interest rate loans have more uncertainty than standard policy loans in the interest rate credited.

If the policy has a Premium Guarantee Rider attached to it, such rider will be terminated upon the election of the Protected Death Benefit. The Protected Death Benefit cannot be elected if the Over loan Protection Benefit is in effect.

Agents offering, marketing, or selling accelerated death benefits for chronic illness in California must be able to describe the differences between benefits provided under an accelerated death benefit for chronic illness and benefits provided under long term care insurance to clients. You must provide clients with the ADBE Consumer Brochure for California that includes this comparison. Comparison is for solicitation purpose only, not for conversions.
